## The Regenerative Practitioner<sup>™</sup> READING MATERIALS AND ASSIGNMENTS

## **Course Reading Materials**

Reading materials for TRP include:

Session Materials: Reading materials and assignments specific to each session will be available via your online course dashboard one week prior to the session. Completing the reading and assignments should take no more than two to three hours, depending on the amount of time you have available for them.

*Recommended Textbook*: **Regenerative Development and Design: A Framework for Evolving Sustainability**. Authors: Pamela Mang, Ben Haggard and Regenesis. Publisher: John Wiley & Sons, 2016. While this textbook is not required, chapters within the book reinforce and offer different perspectives on the concepts presented in the session reading materials. For each session, we will recommend a specific chapter that you may wish to read. The book also provides an easy way to share some of the information you encounter in the course with colleagues and friends (whereas session materials cannot be shared).

*Supplemental Reading:* Occasionally faculty will recommend additional resources as optional enrichment.

## Pre-MeetUp Reading Assignment

Session Materials

The following articles are published online:

- What is Regenerative Development?
- <u>Three Lines of Work</u>

## Recommended Textbook Reading

- Preface: Changing Our Minds
- o Introduction: *The Future of Sustainability*
